This report is an initiative of the Agricultural Resource Risk Management Directorate of the Department of Agriculture and Food, Western Australia (DAFWA), with support from its other directorates. Significant contributions from outside DAFWA have been made by the University of Western Australia (UWA) and Precision SoilTech. Their support is gratefully acknowledged.

Contributors listed are DAFWA staff unless otherwise noted.

Coordination, compilation and graphics
Noel Schoknecht

Editors
Noel Schoknecht
David Bicknell
John Ruprecht
Frank Smith (Wordsmith)
Angela Massenbauer

Executive support
Santino Vitale

Data warehousing and spatial analysis
Ted Griffin and Dennis van Gool

Map production
Phil Goulding and Elvyn Wise

The contribution of the following people is appreciated.
Joel Andrew (Precision SoilTech); Derk Bakker; Paul Blackwell; Steve Carr (AgLime); Dan Carter; Stephen Davies; Brad Degens (Department of Water); Paul Galloway; Chris Gazey; Richard George; Ted Griffin; David Hall; Karen Holmes; Frances Hoyle; Justin Laycock; Adam Lilicrap; Daniel Murphy (UWA); Rebecca O’Leary; Paul Raper; John Ruprecht; Arjen Ryder; John Simons; Rosemary Smith; Russell Speed; Rob Summers; Dennis Van Gool; Santino Vitale; Jon Warren; David Weaver and Elvyn Wise.

Access to important data from other organisations is gratefully acknowledged. These organisations include Precision SoilTech, Wheatbelt Natural Resource Management, South Coast Natural Resource Management Inc., South West Catchments Council, UWA, CSBP (part of Wesfarmers Chemicals, Energy and Fertilisers) and Department of Water.

The contributions of major funders – Department of Agriculture, Fisheries and Forestry (DAFF) through the Caring for our Country program, Grains Research Development Corporation (GRDC) and Precision SoilTech – of a number of DAFWA and other organisations’ projects, is also acknowledged.

Lead authors and reviewers for the individual themes are acknowledged in the theme chapters.

All photographs were taken by DAFWA staff unless otherwise acknowledged.
