

Wheatbelt Partnership 2050

10 February 2022

Responsibility

Shared values

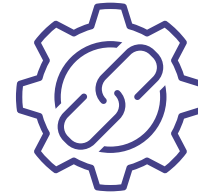

with

Community

**Enabling Australia's
Transition**

Integrated carbon farming and renewable biofuel business

Scalability supporting establishment of new business opportunities for landowners and the communities

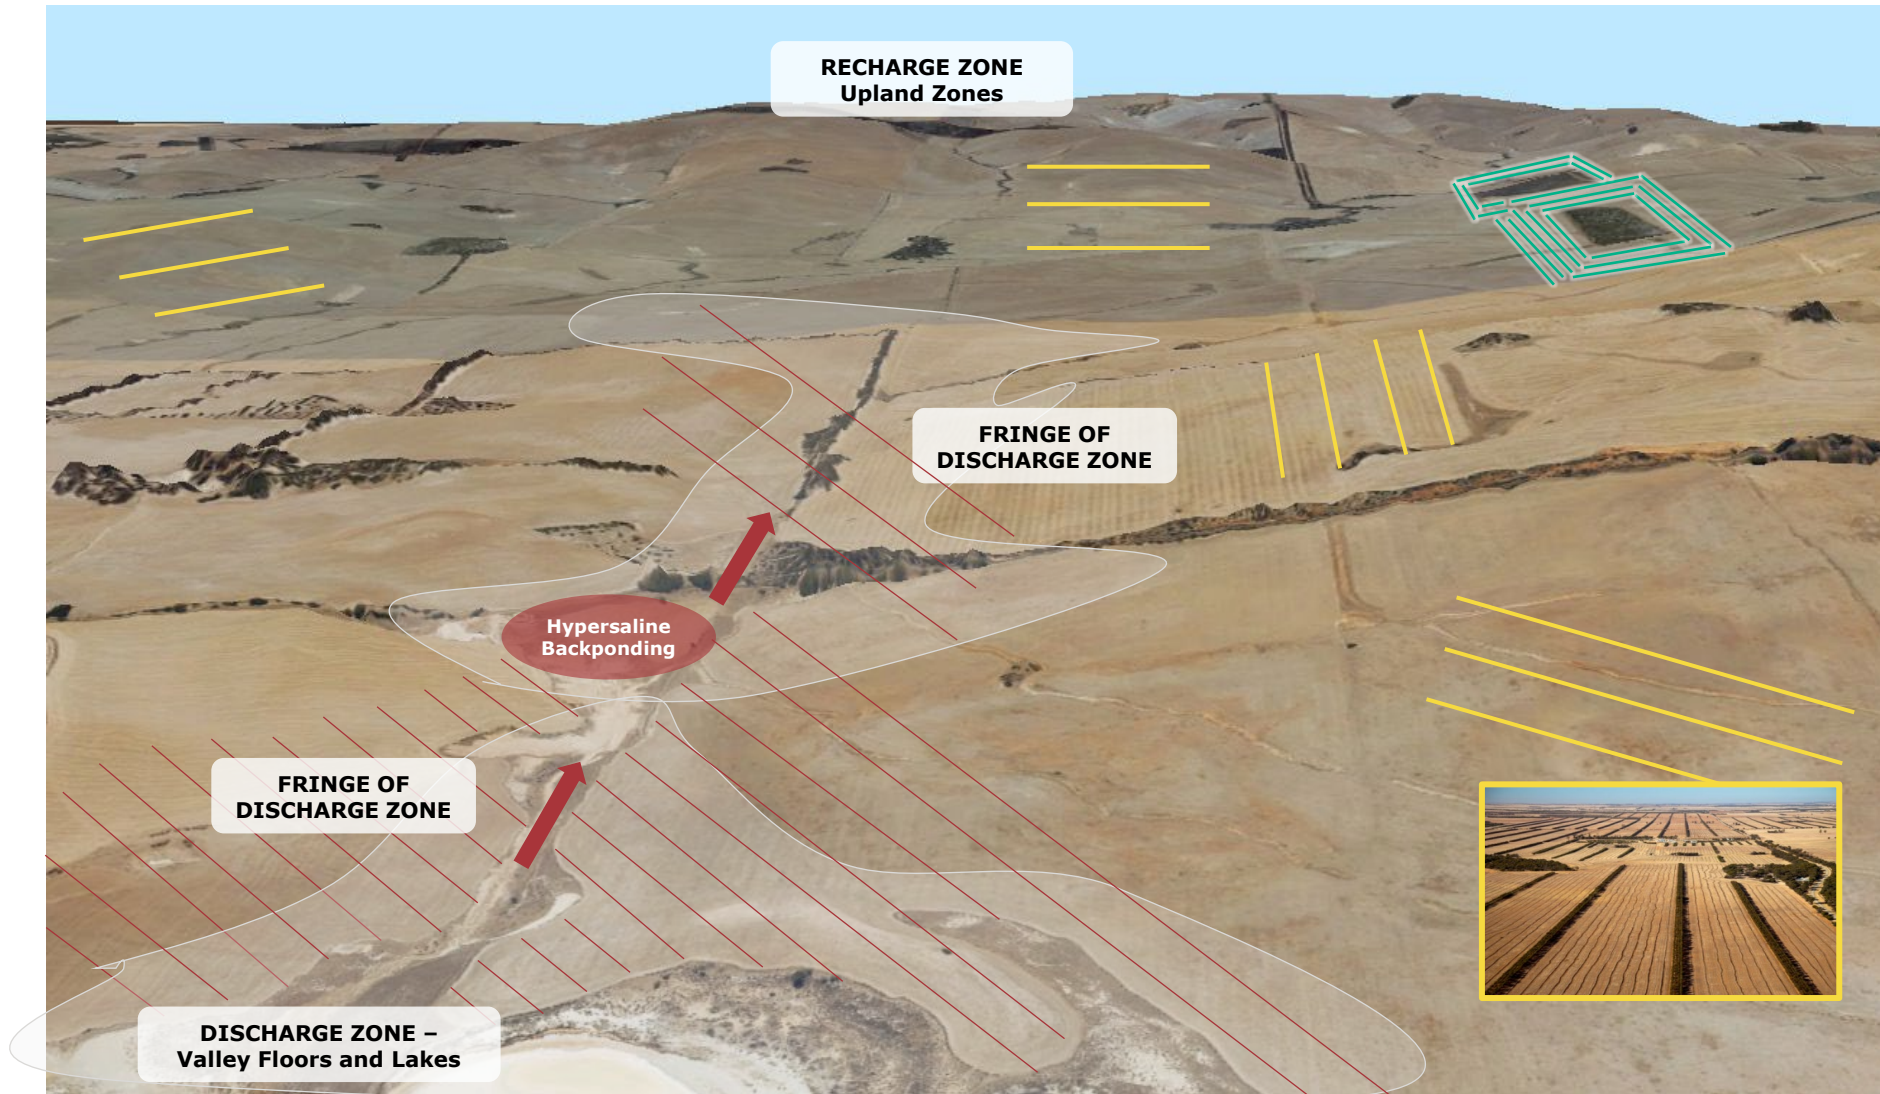

Commercial flexibility and customised financial options for landowners to consider

Minimise direct financial exposure and risk to landowner in the execution of this project

Reforestation strategy and what it may look like for the landowner

Legend

Carbon Farming for ACCU's

Restoration Plantings

Mixed Species between degraded land and productive agricultural land

Biodiversity Planting

Mixed Species between existing reserves and agricultural land

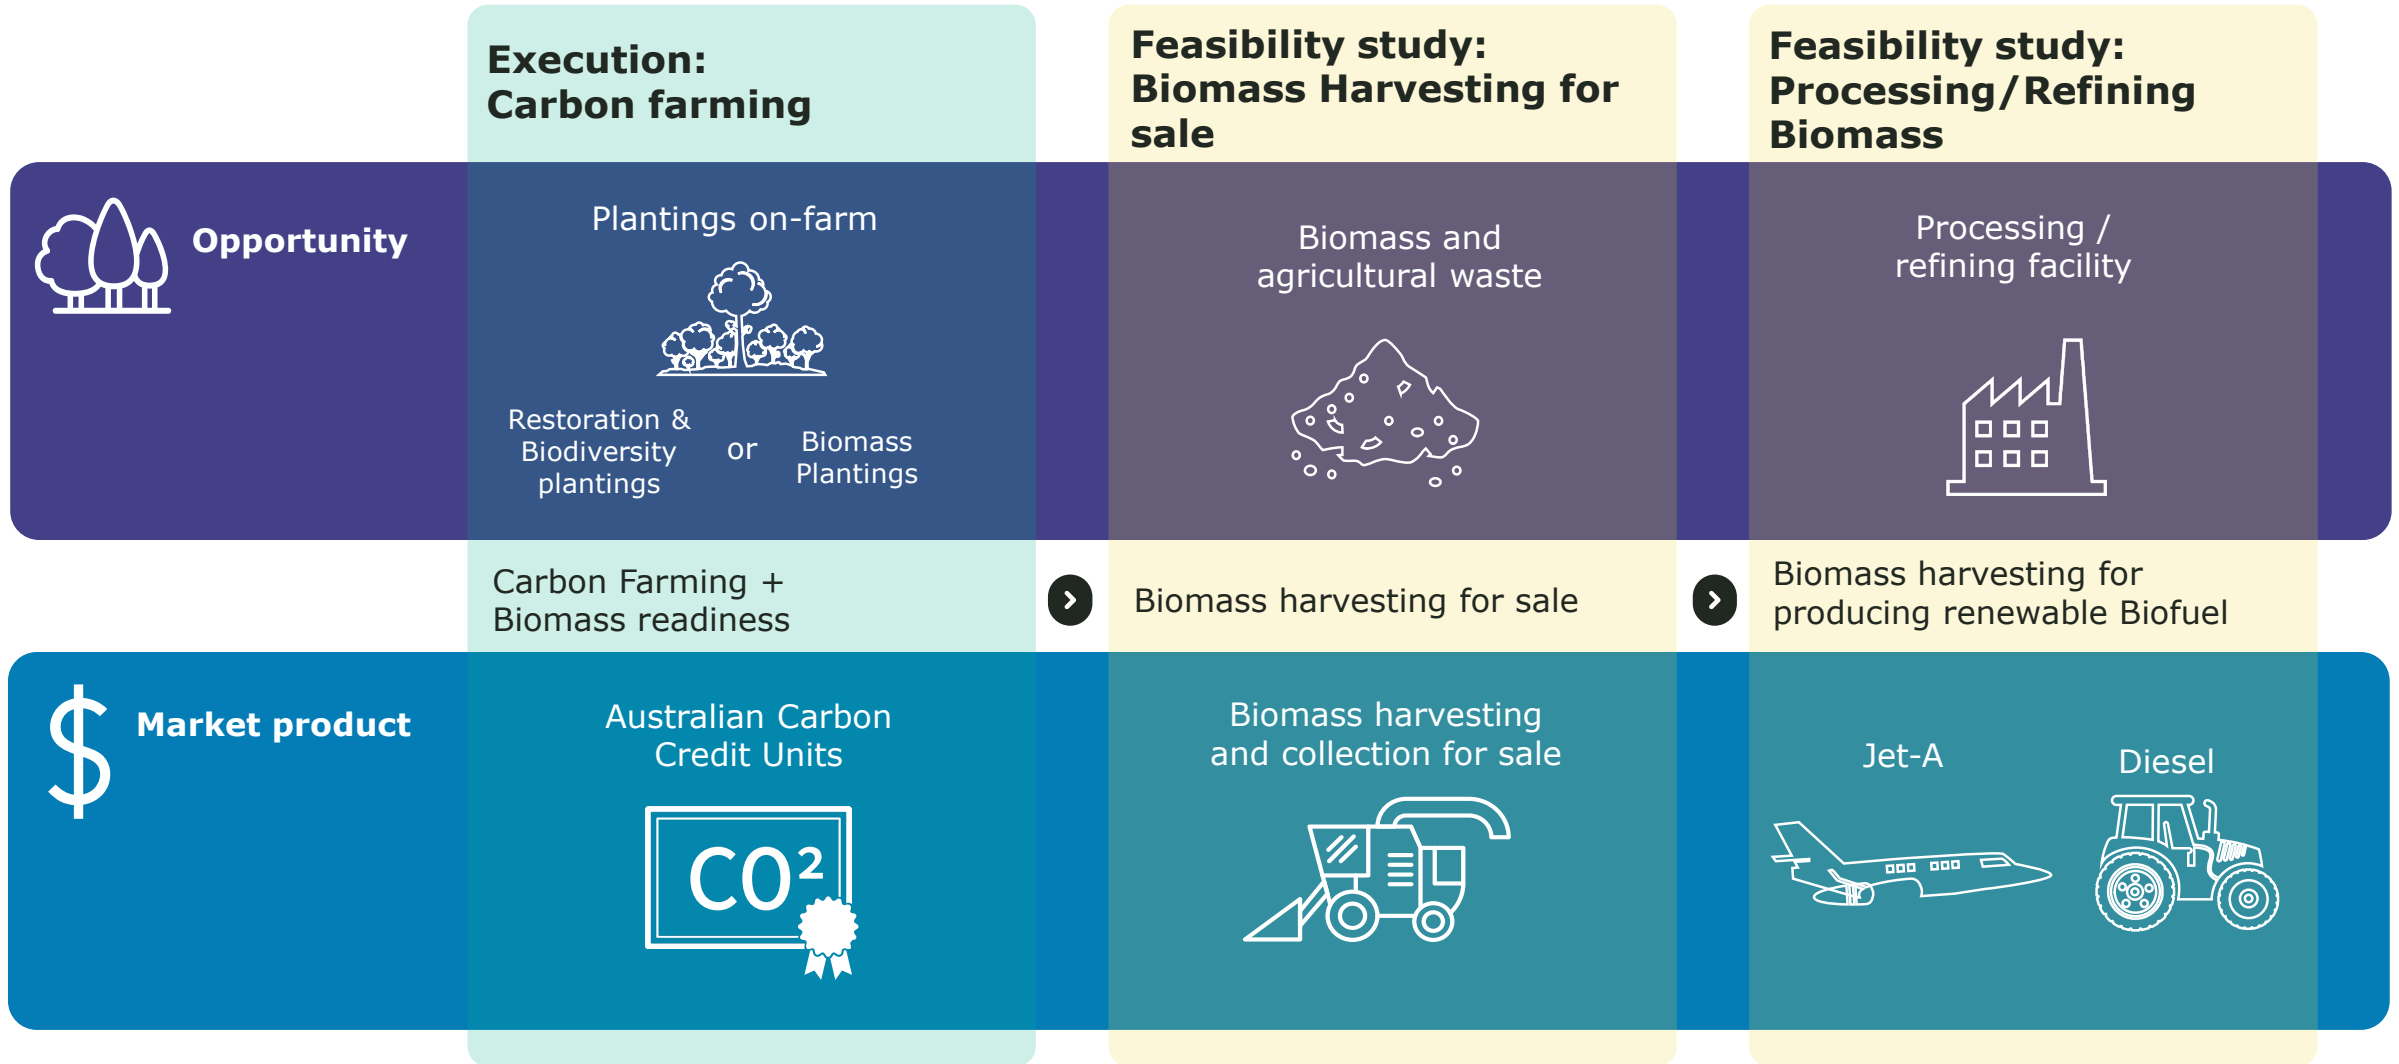

Valley Hazard and Discharge Zones prone to salinity and waterlogging

Biomass for ACCU's + Biofuels

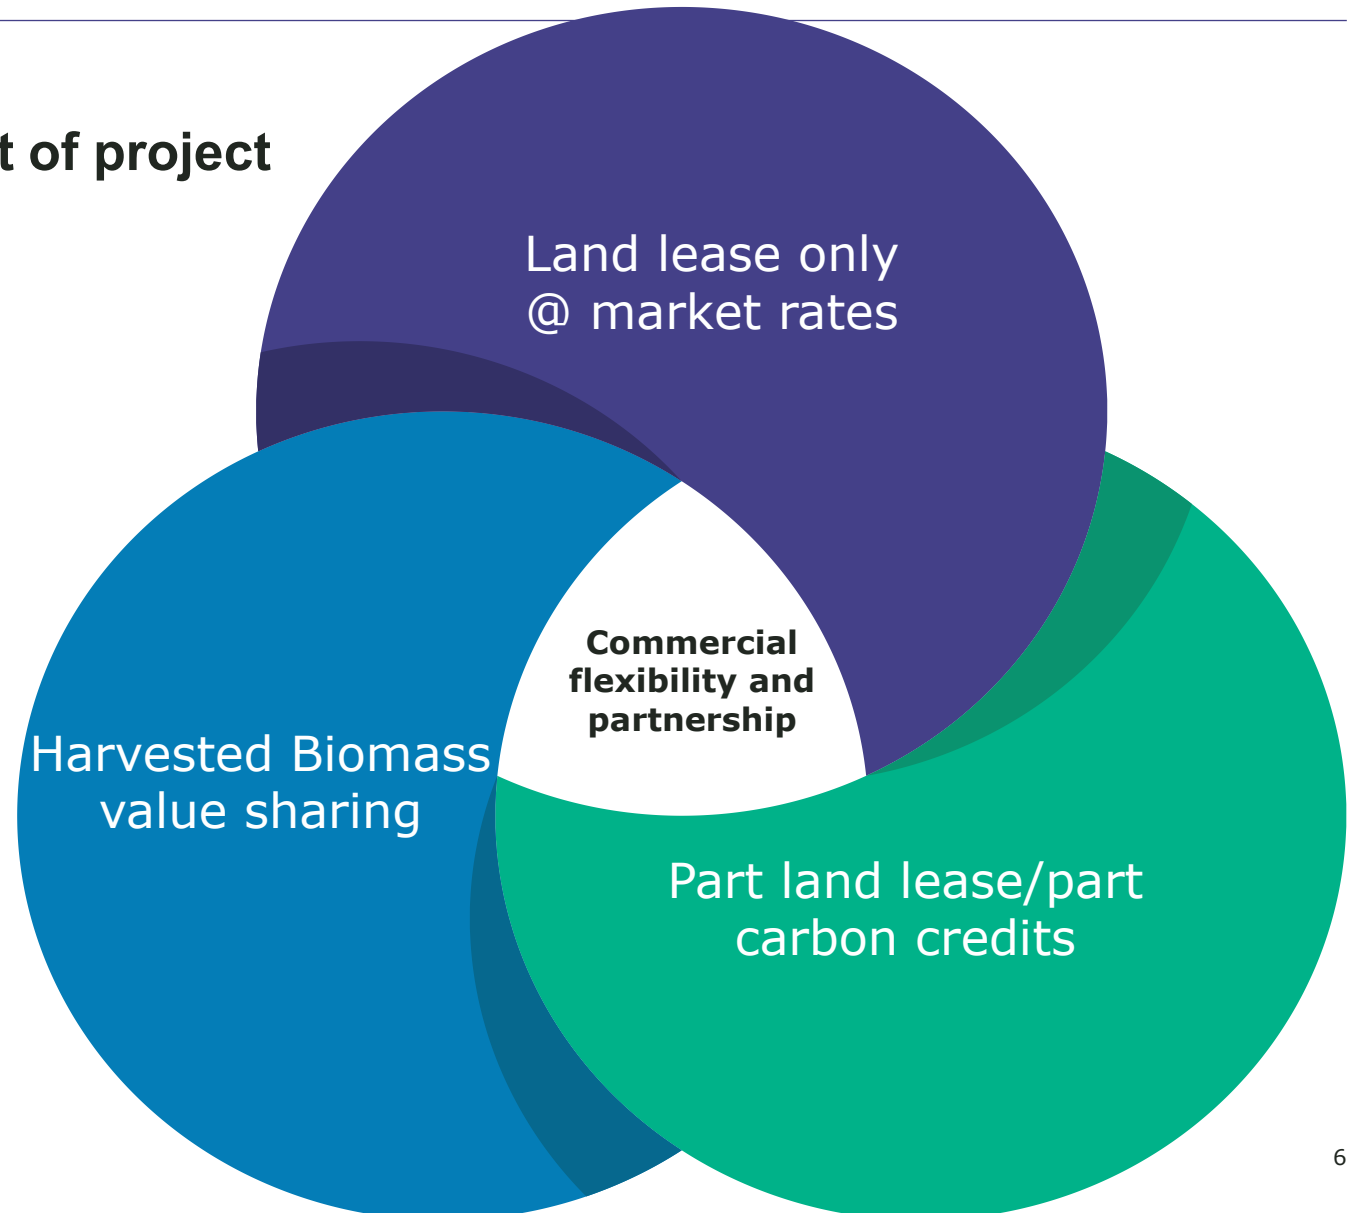

Biomass Plantings Planting

Mallee Belts
Integrated within cropping and grazing systems

Landowners cash flow positive from start of project

- ✓ Income from employment in carbon farming supply chain
- ✓ Opportunity for upside value participation
- ✓ New biomass cash crop
- ✓ Protecting land value
- ✓ Environment benefits

Landowner

Minimised risk

Diversified and more stable farm income

Partnership and flexibility – lease model not purchase

Mitigation and stabilisation of farm productivity risks

Share in carbon credits to offset agricultural emissions

Climate and Nature

Remedial benefits for environment at risk of degradation (soil, water, erosion, acidification)

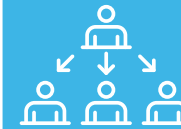

Long-term carbon sequestration and rebuilding of soil carbon

Enrichment of native biodiversity environmental benefits

Community

Create local employment and business opportunities

Introduction of new modern technology and industry, supporting growth of communities

Opportunity for new infrastructure investment and establishment of a more diversified economy

A wide-angle photograph of a lush green wheatbelt landscape under a cloudy sky. The foreground is dominated by a dense field of green wheat. In the middle ground, there are several dark green trees and a line of trees. The background shows rolling hills and more fields under a bright, overcast sky.
